GETTING SEATED

KIVI ELECTRIC TIP-UP PLATE

Vehicle Mounted lifting board for safe vehicle transfers

The **Electric Tip-up Plate** is an aid used by people who find it difficult to transfer to the front passenger or driver's seating position.

As the transfer board is fixed onto the vehicle with a lifting column this reduced the safety risks involved with transferring and has a weight capacity of 100kgs.

FEATURES

-  Various plate sizes available
-  Plate can be removed when not in use and stored in the vehicle
-  Low profile design allows this to be installed into most vehicles

SPECIFICATIONS

-  Easy to use back-up and emergency operations
-  120kgs user weight capacity

The **Electric Tip-up Plate** incorporates the same function as the manual; however, it also has a lifting mechanism that allows you to transfer onto the plate and then, either lift or drop to the height of the seat in the vehicle to complete the transfer onto the seat.

BENEFITS

-  Reduces the effort required for vehicle transfers
-  Provides you with the independence you deserve when travelling to and from your destination
